GTMailPlus .Archiving

Secure and simple email archiving

Email

Archiving

Always on Access

| Financial Predictability | Scalability | Encrypted & Secure |

> Archiving can provide **hard cost savings** that can be easily quantified, resulting in the ability to demonstrate a **significant return-on-investment** and a relatively short payback period.
>
> **Osterman Research, January 2016**
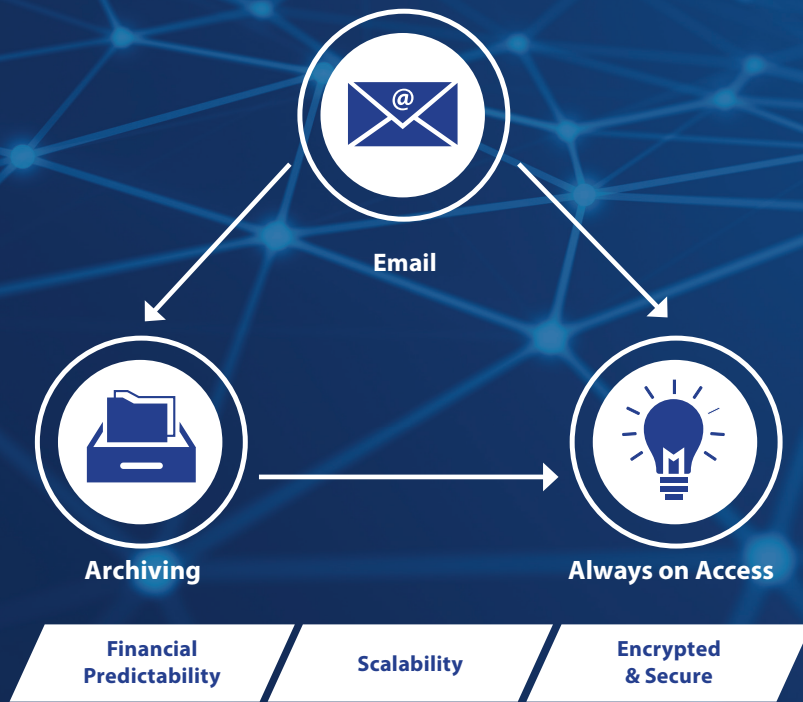

GTMailPlus.Archiving is an integrated **cloud-based email archiving platform** providing customers with quick access to data. It provides a robust and scalable solution enabling customers to manage mailboxes, e-discovery and litigation assistance resulting in the need for fewer IT resources and ultimately lowering costs.

Why do I need Archiving?

Data has become critical to all businesses. Archiving allows fast, safe and secure access and retrieval of all emails to reduce business risks and ensures legal compliance.

> As much as **75% of a company's intellectual property is contained within email** and messaging systems.

Benefits of Archiving

✔ **7 year retention of emails** - providing robust legal compliance

✔ **Financial control** - per vessel pricing with unlimited email volume and unlimited mailboxes to provide financial predictability

✔ **Flexible & scalable** - simple and easy to add or remove new vessels or mailboxes

✔ **Rapid search** - provides access to retrieve archived email within seconds

✔ **Encrypted & secure archiving** - multiple data stores across multiple locations to provide constant availability

✔ **Litigation support** - provides comprehensive compliance and supports e-discovery

✔ **Archive access history** - complete log of all searches and message views

✔ **Retention management platform** - purpose built platform to reduce IT costs and business risks

✔ **Self–retrieval** - manage and search message archive based on numerous criteria

✔ **Shore side archiving** of vessel only emails - emails sent between local users on the vessel are also archived shore side
