GTSeaMail
A stable and secure email solution for small vessels

GTSeaMail

A stable and secure email solution for small vessels

Using our 20+ years of experience providing an email service to large commercial merchant fleets, GTMaritime has developed a robust, simple and cost effective email solution specifically optimised for smaller vessels such as barges, fishing vessels, offshore supply, coastal and inland cargo and leisure craft.
GTSeaMail delivers a cost effective, stable and intuitive email platform ensuring smaller vessels are able to easily and securely communicate with the shore via any web enabled device (laptop, tablet or smartphone).

Why GTSeaMail?

GTSeaMail has been specifically designed for use on smaller vessels who only require one or two email addresses per vessel but still need their system to be secure and stable.

GTSeaMail allows for simple email management, both onboard and remotely, backed up the by the service delivered by GTMaritime.

> Did you know that
> 1 in 190 emails is spam
> and 1 in 400 emails
> contain malware?

Benefits of GTSeaMail

✔ **Shoreside management** - shoreside dashboard allows rule and email management to help control costs and restrict unnecessary emails getting through

✔ **Designed for use over satellite** - deals with high latency circuits and multiple connection management. Compatible with VSAT, Inmarsat, Iridium, Thuraya, GSM, WIFI

✔ **Simple email management** - provides up to two email addresses per vessel with simple management, via any web enabled device, including read, forward, reply, attachments and filing

✔ **Maximum efficiency over expensive circuits** - files compressed up to 95% thereby directly saving on airtime costs

✔ **Encrypted and secure** - our systems have multiple virus scanners and spam filters to ensure the mail received is safe and relevant to you, ensuring that your data is safe and that you comply with data protection legislation

✔ **Simple Install** - GTSeaMail does not require a lengthy and complicated set up process. This allows you to begin accessing your emails straight away saving you time and resource

✔ **Restart from point of interruption** - resumes data transfer from point of interruption if there is a break in communications. Also ability to work offline and only connect for the time needed to send and receive data

✔ **Alerts & reporting** - set up alerts and reports to help manage your vessels including delivery, email and communication reports

✔ **Fleetwide management control** - remote management and configuration of vessels from a single shoreside dashboard

✔ **Mail flow filtering** - ability to whitelist or blacklist email addresses and management mail flow to vessels

Barges — Inland Cargo — GTSeaMail — Fishing Vessel — Leisure Craft
