• Over 20 years maritime communications experience
• 24/7 365 technical support from ITIL trained engineers
• Offices in the UK and Singapore along with a global partner network
• Personally tailored, individual approach to our customers
• Independent software can be used via any communication system

Solutions & Services

GTMailPlus
Maritime email you can rely on

GTSentinel
Optimised maritime antivirus

GTMail4Crew
Simple crew email and SMS

GTNews4Crew
Tailored news and sport

GTSeaMail
Email solution for smaller vessels

GTReplicate
Maritime file and data replication

GTDeploy
Maritime software deployment

GTSentinel
World-class antivirus protection for the maritime industry

6,000+ vessels worldwide trust GTMaritime with their communication solutions

500+ businesses worldwide connected
Viruses can attack any day, any time. GTSentinel now provides live and daily virus definition updates meaning that vessels will get the updates as soon as they are available, helping reduce the threat to business, without incurring large data costs.

By implementing GTSentinel along with GTMailPlus customers benefit from multi-layered protection, providing defence in depth from cyber security threats.

Why GTSentinel?
Without up to date antivirus software onboard, vessels’ systems are vulnerable. GTSentinel protects against viruses from multiple sources making sure your devices and systems are secure.

Why ESET?
GTMaritime has partnered with ESET to deliver GTSentinel. ESET continually develop award winning, leading edge protection and use multi-layered technologies that go far beyond the capabilities of basic antivirus. ESET protect over 100 million users worldwide.

GTSentinel.data usage will remain the same regardless of if you have 5 or 50 clients on board. Data usage example is based on having 5 clients on board a vessel receiving live updates.

GTSentinel is a comprehensive antivirus solution, optimised for the maritime market and designed to protect the vessel whilst minimising the impact on low bandwidth networks. GTSentinel utilises the industry leading, well respected, endpoint antivirus solution from ESET.

Data savings with GTSentinel

Benefits of GTSentinel.Live
- Live, daily or weekly automatic updates - option to choose update frequency based on requirements. Live updates allows for zero day protection, receiving the updates as soon as they are released. Robust mechanism for updates to be delivered in challenging conditions
- Remote fleet management - ability to manage all vessels from shore and access the log retrieval
- World class protection - provides protection against viruses and malware as well as improving detection of known network vulnerabilities
- Heuristic Scanning - can identify specific, known malware or even previously unseen or unknown malware that indicate malicious behaviour
- Auto scan - automatically scans all new devices, such as USB sticks, when inserted into protected machines

How it works

GTSentinel utilises the industry leading, well respected, endpoint antivirus solution from ESET. GTSentinel has partnered with ESET to deliver GTSentinel. ESET continually develop award winning, leading edge protection and use multi-layered technologies that go far beyond the capabilities of basic antivirus. ESET protect over 100 million users worldwide.

GTMaritime has partnered with ESET to deliver GTSentinel. ESET continually develop award winning, leading edge protection and use multi-layered technologies that go far beyond the capabilities of basic antivirus. ESET protect over 100 million users worldwide.

GTSentinel.Live and GTSentinel.Standard versions available. If GTSentinel.Live is not suitable for your vessel’s operating system option to use GTSentinel.Standard. GTSentinel.Standard will run on older systems such as WindowsXP.

GTSentinel.Standard provides weekly updates only and a reduced number of benefits.
