

# GTRAFT

Reliable Automated File Transfer,  
wherever you are

# GTRAFT

**GTRAFT** is a best in class data synchronisation application that allows IT managers to configure, monitor and execute simultaneous file transfer tasks from a central location. Utilising its powerful scheduler, tasks can run automatically with no human intervention.

At its core **GTRAFT** provides a solution to transfer data between the ship and shore reducing time and administration required by IT which ultimately can lead to lower costs.

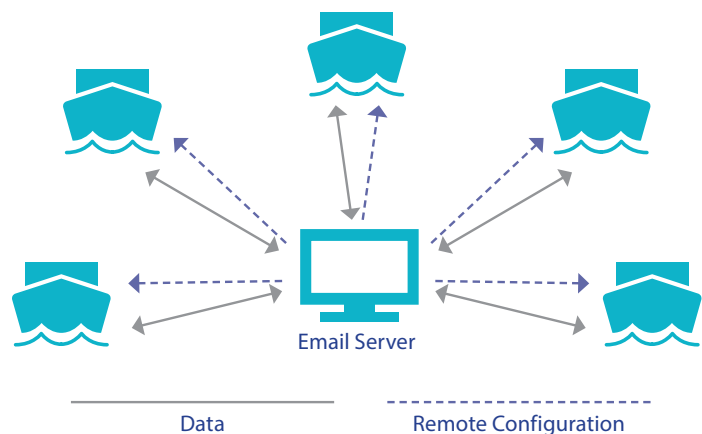

“ **GTRAFT** not only allows us to manage & monitor a wide range of tasks, it also allows us to implement new ones, giving us **full control** without any crew intervention. ”

**Athanasios Vappas**

I.T Superintendent, TMS Group

## Why GTRAFT?

**GTRAFT** allows for the automation of a range of tasks including data file transfer, remote folder synchronisation and system monitoring & setting. All tasks can be controlled centrally, removing the need for input from the crew.

## GTMaritime

**4,500+ vessels worldwide**  
trust **GTMaritime** with  
their communication solutions

**500+ businesses**  
worldwide connected

## Benefits of GTRAFT

- ✓ **Central control and management** - completely manage fleet from a central shore location remotely
- ✓ **Flexible & scalable** - simple and easy to adapt to your business requirements
- ✓ **Performance** - built-in resilience to volatile and unstable satellite communication networks; high data compression
- ✓ **Fully managed from shore** - no need for crew intervention
- ✓ **Bi-directional transfer** - transfer files from ship to shore and shore to ship
- ✓ **Automation** - configure once and allow the system to repeat routine tasks
- ✓ **Any file format** - transfer anything from documents, reports, eforms, applications to automation scripts
- ✓ **Email system agnostic** - works with any email system
- ✓ **Fleet task simplicity** - assign single jobs to multiple vessels
- ✓ **Comprehensive reporting and journaling** - remotely monitor job status from shore
- ✓ **Bypass email size limitations** - files can be split to accommodate size limitation and rebuilt on shore

## How it works

# GTMaritime

Wherever you are, we are.

- **Over 100 years combined maritime communications experience**
- **24/7 365 technical support** from ITIL trained engineers
- **Offices in the UK and Singapore** along with a global partner network
- **Personally tailored, individual approach** to our customers
- **Independent software** can be used via any communication system

## Solutions & Services

### GTMailPlus

Maritime  
email you can  
rely on

### GTArchiving

Simple and  
secure  
email archiving
