

# Archiving

Secure and simple email archiving

Archiving

Always on Access

Financial  
Predictability

Scalability

Encrypted  
& Secure

Archiving can provide **hard cost savings** that can be easily quantified, resulting in the ability to demonstrate a **significant return-on-investment** and a relatively short payback period. ”

**Osterman Research,**  
January 2016

**Archiving** is an integrated **cloud-based email archiving platform** providing customers with quick access to data. It provides a robust and scalable solution enabling customers to manage mailboxes, e-discovery and litigation assistance resulting in the need for fewer IT resources and ultimately lowering costs.

## Why do I need archiving?

Data has become critical to all businesses. Archiving allows fast, safe and secure access and retrieval of all emails to reduce business risks and ensures legal compliance.

As much as **75% of a company's intellectual property is contained within email** and messaging systems. ”

**Osterman Research**

## Benefits of Archiving

- ✓ **7 year retention of emails** - providing robust legal compliance
- ✓ **Financial control** - per vessel pricing with unlimited email volume and unlimited mailboxes to provide financial predictability
- ✓ **Flexible & scalable** - simple and easy to add or remove new vessels or mailboxes
- ✓ **Rapid search** - provides access to retrieve archived email within seconds
- ✓ **Encrypted & secure archiving** - multiple data stores across multiple locations to provide constant availability
- ✓ **Litigation support** - provides comprehensive compliance and supports e-discovery
- ✓ **Archive access history** - complete log of all searches and message views
- ✓ **Retention management platform** - purpose built platform to reduce IT costs and business risks
- ✓ **Self-retrieval** - manage and search message archive based on numerous criteria
- ✓ **Shore side archiving** of vessel only emails - emails sent between local users on the vessel are also archived shore side
